Summary

Recent IT graduate with a passion for web development and experience in building full-stack applications using Django and React. Proficient in Python, HTML, CSS, and JavaScript, with a strong understanding of RESTful API design and database management. Committed to writing clean and maintainable code, and always eager to learn and stay up-to-date with the latest technologies. Seeking a software engineer position in a dynamic and challenging environment to further develop my skills and make a positive impact on the projects I work on.

Technical Skills

- **Programming Languages:** Python & JavaScript
- **Frameworks/ Library:** Django, Django Rest Framework, Next, React, Redux & Material-UI
- **Web Technologies:** HTML, CSS, SASS & Bootstrap
- **Version Control:** Git & GitHub
- **Databases:** SQLite & PostgreSQL
- **Testing:** Unit Testing & TDD (learning)
- **Deployment:** Heroku & AWS
- **Operating System:** Windows & Kali Linux

Key Skills

- Strong problem-solving and analytical skills
- Ability to work collaboratively with a team of developers, designers, and stakeholders
- Excellent communication and interpersonal skills
- Willingness to learn and adapt to new technologies and tools
- Ability to work under pressure and meet deadlines

Projects

Social Media Project [Under Development]

The goal of this project was to create a social media platform where users can create profiles, connect with friends, share posts, and interact with each other.

- Tech Stack: Django, Django REST Framework, React & MUI
- Live Link: <https://social-media-vphf.vercel.app/>
- Github Link: <https://github.com/rlopxhan21/SocialMedia>

Blog Project [Under Development]

The goal of this project was to create a platform for users to publish and share their thoughts and ideas with a community of readers.

- Tech Stack: Django, Django REST Framework & React
- Live Link: <https://blog-rlopxhan21.vercel.app/>
- Github Link: <https://github.com/rlopxhan21/-Blog>

Employment History

Software Engineer Intern - REBB TECH [Feb 2023 – Present]

- Contributed to the development of multiple web applications using React and Django, gaining experience in full-stack development and deployment workflows.
- Gained practical experience in software development methodologies, such as Agile and Scrum, and learned to write clean, efficient, and maintainable code.
- Collaborated with a team of developers, designers, and project managers to ensure the timely delivery of projects, and participated in code reviews and agile ceremonies.

Education

Front End Web Development Boot Camp - Dented Code Academy

I developed a strong understanding of software developments principles and completed multiple projects using agile methodologies and collaborated with a diverse team of developers and designers to build functional and visually appealing web applications.

Year of Graduation: 2023

Bachelor in Information System & Digital Enterprises - Sydney International School of Technology & Commerce

Year of Graduation: 2022
