Summary

Recent IT graduate with a passion for web development and experience in building full-stack applications using Django and React. Proficient in Python, HTML, CSS, and JavaScript, with a strong understanding of RESTful API design and database management. Committed to writing clean and maintainable code, and always eager to learn and stay up-to-date with the latest technologies. Seeking an entry-level position in a dynamic and challenging environment to further develop my skills and make a positive impact on the projects I work on.

Key Skills

- Good experience in developing web applications implementing Model View Control architecture using **Django** web application frameworks.

- Experience in **Object Oriented Analysis** in developing **server side and front-end framework** using various design patterns.

- Experience in development of web based application using **Python, JavaScript, HTML, CSS, & React.**

- Good knowledge on front end frameworks like **CSS Bootstrap & Material UI.**

- Good knowledge about setting up Python REST API Framework using **Django.**

- Excellent interpersonal and communication skills, efficient time management and organization skills, ability to handle multiple tasks and work in a team environment.

Technical Skills

- **Programming Languages:** Python & JavaScript

- **Frameworks/ Library:** Django, Django Rest Framework, React, Redux, Material-UI

- **Web Technologies:** HTML, CSS, SASS & Bootstrap

- **Version Control:** Git & GitHub

- **Databases:** SQLite & PostgreSQL

- **Testing:** Unit Testing & TDD (learning)

- **Deployment Tools:** Heroku & AWS

- **Operating System:** Windows & Kali Linux

Projects

Social Media

This project is a full-stack web application built using Python, Django, and React. The goal of this project was to create a social media platform where users can create profiles, connect with friends, share posts, and interact with each other.
